

# **5 FAH-2 H-820 SECURITY SAFEGUARDS**

*(TL:TEL-1; 07-01-1998)*

## **5 FAH-2 H-821 SECURE HANDLING**

*(TL:TEL-1; 07-01-1998)*  
*(Uniform State/USAID/USIA)*

a. IPC personnel must comply with the security standards that apply to the communications and automated data processing (ADP) equipment they maintain. Safeguarding security applies to selecting the shipping method most appropriate for the type of material, area where it will be used and threat level of the post. Any electric/electronic item, information technology, personal computers, peripheral devices, microwave ovens, etc. used in a CAA must be shipped via diplomatic courier pouch. Radio and telephone equipment used outside a CAA may be shipped via unclassified pouch or APO. Only authorized and cleared personnel may repair Department telecommunications equipment. For further clarification and permissions applicable to post's threat level consult 12 FAH-6, *OSPB Security Standards and Policy Handbook* and 5 FAH-6, *Communications Security Handbook*.

b. If equipment is deemed suspect by the RSO, contact DS/IST and IRM/OPS/ITI/TSS for guidance on disposition of the equipment.

## **5 FAH-2 H-822 ACCESS CONTROL**

*(TL:TEL-1; 07-01-1998)*  
*(Uniform State/USAID/USIA)*

The Regional Security Officer at post is responsible for restricting access to classified information systems to individuals cleared at the highest classification level of information processed on the equipment (12 FAM 600). IPC personnel restrict access to the IPC and escort and keep a written record of all authorized visitors as prescribed by 5 FAH-6, *Communications Security Handbook*.
