Subject: (AP) South Korea seeks UN action against North Korea over ship

UNITED NATIONS (AP) - South Korea has handed over a letter officially referring North Korea to the UN Security Council over the ship sinking. South Korea's UN Ambassador Park In-kook said he presented a letter to Mexico's UN Ambassador Claude Heller, the current Security Council president, on June 4. He says the letter asks the council "to respond in a manner appropriate to the gravity of this situation."
