Secretary Clinton -

Attached is the latest version of the speech including the edits that Oscar faxed to me. There is one line on the top of page 29 (bottom of 25 in the document attached) that I could not track properly from the edits. In the sentence

"He has also committed to deep and effective reductions in greenhouse gas emissions here at home, with a plan that will dramatically change the way we produce, consume and conserve energy, and in the process spark an explosion of new investment, and millions of jobs. Now we must urge every other nation to meet its obligations and seize its opportunities. "

I added the word urge -- either I misread, there was a word missing or i was supposed to leave in the phrase "the message that the responsibility must be shared by all"
